### About Me

With technical experience in Fullstack development, including REST APIs, several Web Sites and Landing Pages I'm eager to work on a team and help with my knowledge and effort. Interested in computer sciences and digital technologies. Also I've worked with DevOps technologies like AWS, deploying and managing services in cloud.

### Professional Experience

- + Devops and React Developer · **ArrancAR** May 2024 — Jul 2024
  - Web SPA (Single Page Application) development and implementation in React.
  - CI/CD (Continuous Integration and Continuous Delivery/Deployment) implementations for backend and frontend development teams through AWS, Github Runner and GitHub Actions.
  - Amazon Web Services (EC2, RDS, IP Routing) configurations for deploy and host of React S.P.A., Java Spring Boot API REST and MySQL Database services.
- + Backend Developer · **Artesanias Market** Apr 2024 — May 2024
  - Web API design, development and implementation in node.js for the web app "Artesanias Market".
- + PC Repairman · **Super Interlaken** Aug 2023 — Oct 2023
- + Software Developer Intern · **GAO Tek Inc.** Apr 2023 — Aug 2023
  - Deliver useful and well written strategy documents for a diverse variety of company IT areas like website programming and internet/marketing.
- + Web Page Developer and Maintainer · **Super Interlaken** Aug 2021 — Oct 2021
  - Developed and styled interactive web page for a supermarket group.
  - Built web using HTML, CSS and Javascript programming web technologies.
  - Implemented the corresponding responsive design for mobile devices.
  - Web Page Administration and Maintenance Service in 'SuperInterlaken' supermarket group since deploy.

### Other Development Projects

#### Dentist Reservation - React Website - Frontend

Implemented a Single-page Application (S.P.A.) using React, React Router, React Context and React Reducer consuming a dentist REST API.

#### Clinica Odontologica - Java REST API - Backend

Implemented a Spring Boot Java Application as Backend. Designed and made the corresponding CRUD operations for Dentist administration.

#### ToDo App - Website

Implemented an interactive Web Application for Note-Taking. HTML, CSS and Javascript technologies were used.

#### Sportit - Website

Implemented a DigitalHouse career project on HTML and CSS. Using the good practices at translating a web mockup to code.

#### Snack Picker - Contribution

Web site implementing javascript code as a simple technique of picking random elements from an array based on probabilities. Made for academic purposes.

### Skills

#### Relevant Programming Languages

Javascript, HTML, CSS, MySQL, SQL, Java, C, C++, Shell Scripting.

#### Libraries & Frameworks

Express.js, Sequelize, Node JS, SASS, ReactJS, W3.CSS, Jest, Bootstrap, JUnit, Spring, Spring Boot, Hibernate.

#### Tools, Platforms & Methodologies

Linux, Git, Github, Bash, Docker, Terraform, Ansible, AWS, IaC, Figma, GIMP, VSCode, Vim, API Testing and Postman, OOP, SCRUM.

### Education

**UES21** Oct 2022 — Present

Bachelor in Computer Science Degree at Universidad Empresarial "Siglo 21".

**Digital House** Oct 2022 — Jul 2024

Certified Tech Developer Course.

**Universidad Nacional de La Plata** Feb 2016 —

Sept 2022

Bachelor in Computer Science Degree.

**Instituto Mariano Moreno** 2010 — 2015

High School.

### Languages

#### Spanish

Level: Native.

#### English

Level: Intermediate.
